REPORT OF PUBLIC HEALTH NURSE

The Public Health Nursing Program has included a health educational plan that has been available to all individuals. Two Child Health Conferences have been conducted during the year. Smallpox vaccinations were accepted by a few individuals. The Public Health Nurse was able to give assistance with health problem cases in the town.

Fifty-three audiometer tests were given, and twelve children with defective hearing were found at this time. Four educational films were shown to the pupils, and these were received with a great deal of enthusiasm. The children in one rural school were able to see these films also because a generous citizen opened her home to provide necessary electricity.

Three crippled children have received assistance from the Public Health Nurse and have attended the Crippled Children's Clinic at the Rumford Community Hospital.

There is a need for physical examinations of pupils during the school year in order to improve the health status of all individuals and to detect faults.

Marked interest has been shown in school lunches. It is hoped that every family will accept the opportunity to donate time or material things for this special project that the teachers are willing to promote.

Servicemen's families have been visited with a great deal of satisfaction. These young mothers are eager to learn of good hygiene for their infants.

Through the cooperation of teachers, parents, children, interested citizens and town officials, the Public Health Program has reached more individuals and thus improved the health status of Greenwood.

Respectfully submitted,

RUTH W. HOPKINS, R. N.

AUDITOR'S REPORT

State of Maine
State Department of Audit
Augusta

January 10, 1945

To the Inhabitants of the Town of Greenwood:

In accordance with the request of your municipal officers, this department, represented by C. G. Hawes has completed an examination of the accounts of your town officials for the municipal year ending December 30, 1944.

In our opinion, based upon such examination, the accompanying exhibits and schedules fairly present the financial condition of your municipality as of that date, and summarize its fiscal transactions during the municipal year then ended.

The data obtained by us is summarized in the following:

	Comments
Exhibit A	Balance Sheet
B	Cash Receipts and Disbursements
C	1944 Valuation, Assessment and Collection
D	Statement of Departmental Operating Accounts
E	Analysis of Change in Net Surplus
Schedule 1	Reconciliation of Treasurer's Cash Balance
2	Investments—Government Bonds
3	Investments—Capital Fund
4	Summary of Taxes with Supporting Detail
5	Summary of Tax Liens with Supporting Detail
6	Summary of Tax Acquired Property with Supporting Detail
7	Trust Funds

Respectfully submitted,

FRED M. BERRY

State Auditor

COMMENTS

Cash

All receipts as recorded were examined and the cash for same was found to have been deposited in the bank, with the exception of \$1,266.72 cash on hand, which was verified by actual count. The detail is shown on Exhibit B.

Expenditures were made by check from warrants drawn by the Selectmen, as summarized on Exhibits B and D.

The cash balance reconciled with the bank statement at the close of the municipal year, as per detail shown on Schedule 1.

Taxes—Property and Poll

The 1944 tax commitment was added and found to agree with the records of the Assessors. The total commitment was accounted for by cash and abatements or was still unpaid according to the records of the Collector.

Payments received on prior years' unpaid taxes were credited against the proper items. The unpaid prior years' taxes are summarized and detailed on Schedule 4.

All recorded receipts on tax liens were found to have been applied against the proper items. The liens on hand are summarized and detailed on Schedule 5.

The tax acquired property is summarized and detailed on Schedule 6.

The cash collection of the current year's taxes was 94.8% ; while all taxes collected during 1944, both current and prior, amounted to 126.4%, both as against the current commitment.

Excise Tax

The excise taxes were checked from the copies of the receipts as follows:

Balance from 1943 (Exhibit A)	\$27.82
1944—Receipts No. 12 to 163 (Exhibit B)	414.21
TRANSFERRED TO NET SURPLUS (Exhibit E)	<u>\$442.03</u>
1945—Receipts No. 1 to 16 (Exhibit B)	
Carried to 1945 Year (Exhibit A)	<u>\$35.80</u>

Notes Payable

The outstanding notes amounting to \$3,000 were paid in

full during the year, \$1,000 was paid from the appropriation made at town meeting and \$2,000 from general cash.

Trust Funds Owned by Town

All trust funds have been used by the town, but as the town has a very substantial cash balance, it would seem proper to repay these funds in 1945. Interest was appropriated and transferred to the Cemetery Income and School Accounts during the year.

Net Surplus

Reference to Exhibit A indicates that as of the close of the municipal year, there was a Net Surplus of \$7,221.76 as compared with \$8,179.28 shown a year previous. This represents a decrease of \$957.52, the analysis of which is shown on Exhibit E of this report.

General

Our test check of paid invoices and payrolls indicated they were proper charges and correctly recorded.

The Withholding Tax records were so examined and appeared to have been properly kept. Checks were drawn for this tax and sent to the Collector of Internal Revenue quarterly.

The records of dog licenses issued by your Town Clerk showed collection in the sum of \$72.30. \$71.40 has been paid to the State Treasurer, \$.90 being due from the Town Clerk.

With the exception of cash, cash invested and capital reserve fund, no external verification was made of your asset and liability accounts.

It is our recommendation that at least two members of the Board of Selectmen approve the warrants before presenting them to the Treasurer for payment.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the Citizens of the Town of Greenwood:

I herewith submit my report of your schools for the year 1944:

Few Towns have been so fortunate as Greenwood in retaining its teaching staff. The schools opened in September with the same teachers with which they closed in June. That Greenwood can obtain the services of efficient local teachers is cause for rejoicing. Were this not the case it is quite probable that some of our schools might be without teachers. The work in each and every school is going on in a very satisfactory manner due to the cooperation of school officials, teachers, pupils, parents and citizens.

A school lunch program is being introduced at the Locke Mills school through the efforts of the teachers in soliciting the cooperation of the citizens of the community. Before this report is printed the pupils who have to eat a cold lunch at noon will be enjoying a hot dish to supplement their cold lunch. The school is deeply grateful to the parents and citizens who have so willingly volunteered to contribute in various ways to this project.

Several books are being added to the school library at Locke Mills through the efforts of the teachers without expense to the town. A generous donation from an anonymous friend of boys and girls is deeply appreciated.

The health program has been carried on under the guidance of the public health nurse. Physical examinations and preventative toxoids have been administered by a physician. It is believed that the hot lunch served during the winter contributes to the health and general development of the pupils. In the one room schools the teachers and parents have cooperated for several years in providing something hot for the noon lunch during the cold weather.

The Greenwood schools have responded whole-heartedly to the various demands made upon them in helping to win the

war. During the fall term of 1944 stamps and bonds were purchased to the amount of over \$500. The tin can and paper drive have also been successfully carried on.

The financial report submitted requires some explanation in order for the citizens to intelligently consider the appropriations for next year. The balance as it appears on the common and high school account is over \$2,000, which would indicate that the same appropriations as last year might be sufficient.

Teachers in many places have for sometime been paid on a monthly basis over a twelve-month period. They prefer this in that it gives them an income during the summer. The Greenwood teachers and the janitor at Locke Mills have been paid on this basis since September, 1944, which means that the amount paid them up to January 1, 1945, is \$672 less than it would have been had they received their full pay as under the former schedule when they were paid their salary bi-weekly over a thirty-six week period. In other words the balance on the common and high school account is \$672 more than if they were being paid as heretofore.

The coal for the present school year was not all delivered before January first so that the balance of the coal for this year must be paid out of the balance as it appears in the financial report. Thus in considering the appropriations for another year it is advisable to consider the balance of January 1, 1945, about \$750 less than it appears in this town report.

Again the citizens will please bear in mind that our high school tuition charge is constantly increasing. This year we have had thirty-two pupils attending high schools and judging from the present enrollments in the common and high schools this number will not be reduced next year. Furthermore the tuition charges have been increased in some high schools to \$125 and it is necessary for Greenwood to meet this extra expense in Norway and South Paris high schools.

Another reason for an increased appropriation is that the State equalization fund allotment for Greenwood for the coming year is \$600 less than that of the past year.

With the above situation to face your superintending school committee has gone over the matter carefully and each one feels that the recommendations are the lowest possible if we continue to efficiently maintain our schools. The boys and

girls in the elementary schools must not suffer as the result of the large amount paid for high school tuition.

Textbooks and supplies can be provided with the same appropriations as last year.

More money will be needed for repairs since the Greenwood City and Greenwood Center buildings should be shingled, the roof of the porch at Locke Mills must be repaired. The interior of the Tubbs school was not refinished as planned last year on account of the manpower shortage so this must be done if possible this year. In the matter of insurance, adjustments have been made so that beginning this year the cost will be nearly uniform. The annual payments will be approximately sixty dollars per year.

Your committee and superintendent, in making their recommendations are fully aware of the burden placed upon the taxpayers of Greenwood and it is hoped that the town will not fail to respond to the needs of the schools.

Again I wish to thank all those who directly and indirectly have contributed to the successful operation of our schools.

Respectfully submitted,

CARRIE M. WIGHT
